

PG County Zoning Code Rewrite Request Sent To M-NCPPC

NCPCA members have worked with College Park staff and elected officials to understand the zoning code rewrite process and potential impacts to our community. We concur with the comments approved by College Park City Council to your office on Dec. 5, 2017. We are very concerned about potential zoning changes and impacts to residential properties near US 1, MD 193, Hollywood Commercial District, and Greenbelt Metro Station. We ask that you preserve and protect the residential character of North College Park in conformance with existing Sector Plans, and that you avoid any zoning changes that may adversely impact our homes, parks, open spaces and quality of life. We ask that you keep us informed of all future meetings and opportunities for comment.
