Dear Mayor and Council,

In light of the adoption of the FY2021 City budget, the North College Park Community Association wants to reiterate its support of the funding designated for the final design and construction of the Hollywood Streetscape project particularly the less costly and most immediately valuable elements of the concept. Such includes the paved walking path, benches, trash cans, street lighting, signs, trees and plantings, and similar improvements which will enhance the Hollywood Shopping district and consequently will benefit of the residents and commercial visitors. We look forward to the completion of the project with much anticipation.

Respectfully,

Mary C. Cook
