Subject: NCPCA Support for 'Don't Block the Box'

Dear Senator Rosapepe,

At the meeting of the North College Park Community Association (NCPCA) on March 8, 2018 there was considerable discussion about traffic congestion and rush hour gridlock at the intersection of US 1 and Edgewood Road. As you may be aware, it is frequently impossible for vehicles to pass through this intersection during peak travel times, and particularly in the afternoon and evening.

It is our understanding that the City of College Park has already expressed support for HB 672 (see attached). Last night the members of NCPCA voted unanimously to endorse the City's support, and they respectfully request your assistance to pass 'don't block the box' legislation as way to improve traffic flow and safety in our community.

Thank you very much for your efforts on our behalf.

Sincerely,

John Krouse
President
