

October 4, 2021

Dear Honorable Mayor and Councilmembers,

The North College Park Community Association would like to express its deep concern regarding the Metropolitan housing project on Cherokee Street. It has come to our attention that the project's developers intend to reduce the number of parking spaces while increasing the number and type of housing units. This is in direct violation of their covenant with the City.

We urge you to recognize the hardship this will put on the neighborhood should there be inadequate parking on the property and take the appropriate action to ensure that the quality of life in the adjacent neighborhoods will not be jeopardized.

Respectfully,

Mary C. Cook
President
North College Park Community Association
